# Understanding the military experience

Providing care to service members, veterans and their families

Service members, veterans and their families make sacrifices for all of us. **STAR BEHAVIORAL HEALTH PROVIDERS** offers training to help you better understand their experiences and an online registry that will help them find you.

**Tier One** introduces participants to military culture, including core values, terminology, branches of the service and military operations. It also covers the impact of deployment on families and challenges in post-deployment reintegration. Behavioral health providers and other professionals will gain greater competency for working with military-connected individuals.
